## NEW WEEDS TOOL FOR TOOLBOX

### launched at the Henty Machinery Field Days!

Minister for Primary Industries, Katrina Hodgkinson, recently launched the Weeds of the Riverina Identification & Control Guide at the Riverina Weeds display at the Henty Machinery Field Days. An initiative of ERNWAG & WRNWAG, the new resource aims to increase weed awareness of not only noxious and environmental weeds but the new and emerging high risk species that aren't yet established here. A quick reference for management techniques, weed professional contacts, vehicle hygiene, our catchment based regional weed strategies, noxious weed declarations, obligations of councils, obligations of landholders. Copies of the guide are available from Greater Hume Shire Council offices or [www.greaterhume.nsw.gov.au](http://www.greaterhume.nsw.gov.au). For more information on weeds go to [www.riverinaweeds.org.au](http://www.riverinaweeds.org.au) or [www.dpi.nsw.gov.au/weeds](http://www.dpi.nsw.gov.au/weeds).

## MEET THE STAFF

### Justin Blair

### Weed Control Officer

I grew up on a large farm in north eastern Victoria where the family ran Angus cattle on alpine grazing lands. With the cancellation of alpine grazing licences in Victoria I had to look at other options and moved into manufacturing as a low volt technician.

Deciding to start my own transport business two years ago, then with the birth of my first child I sold the business and started in noxious weeds. I enjoy Aussie rules both playing (retired as of this year) and watching and am a keen follower of the Hawthorn Football Club. Here at Greater Hume I hope to be able to help the noxious weeds department minimise the impact of noxious weeds on the community.
